ONLINE dylanferguson.co · github.com/dylanferguson · linkedin.com/in/dylanbferguson

Principal Engineer focused on thoughtful end-user experiences and better developer workflows. Works collaboratively across system design, delivery, automation and production operations.

EXPERIENCE

NAB

Jan 2019 – Present

Principal Engineer

Apr 2025 – Present

Previously: Solution Designer (2024–25), Senior Software Engineer (2020–24), Software Engineer (2019–20), Graduate Engineer (2019)

- Principal Engineer on a conversational AI platform, working across system design, scoping, full-stack delivery, developer tooling, test automation and production operations.
- Built internal tooling that streamlined day-to-day development workflows.
- Established platform monitoring, alerting and dashboarding; introduced SRE practices and strengthened production ownership within the team.
- Previously developed and operated the CMS, micro-frontends and infrastructure behind nab.com.au as part of its web platform team.

`TypeScript` · `Node` · `React` · `PostgreSQL` · `AWS` · `Docker` · `Splunk` · `AppDynamics`

Stile

Sept 2017 – Jan 2019

Contract Web Developer

- Maintained and evolved Stile's React-based marketing site (stileeducation.com).
- Partnered with marketing and design on the launch of new campaigns, products and platform features.

`React` · `Flow` · `Gatsby` · `CSS Modules` · `Ruby` · `Buildkite` · `AWS`

MLC

Jan – Jul 2018
